The 17<sup>th</sup> century Grade 1 listed, Wren inspired buildings form a quiet oasis in Bromley North. The walk will take us through the two quadrangles of the main College, into the Chapel (1864), around the grounds to see Sheppard's College (1840) and some 200 year old graffiti.

Starting in Bromley North, the walk will also look at the setting of the College at a crucial time in the growth of the town. We'll finish in Market Square.
