90 minutes.

The 17th century Grade 1 listed, Wren inspired buildings form a quiet oasis in Bromley North. The walk will take us through the two quadrangles of the main College, into the Chapel (1864), around the grounds to see Sheppard's College (1840) and some 200 year old graffiti.

Leaving the College, we go down the High Street looking at how the town grew in the late Victorian period with some amazing Arts and Craft architecture. We'll finish in the Market Square.
